

Department of Environmental Protection Telephone Directory April 2012

The Florida Department of Environmental Protection, the lead agency for environmental management and stewardship, is one of the more diverse agencies in state government - protecting our air, water and land. DEP is divided into three primary areas: Regulatory Programs, Land and Recreation, and Water Policy and Ecosystem Restoration. Florida's environmental priorities include achieving regulatory certainty, consistency and protection, getting the water quality and quantity right in Florida, and ensuring our residents and visitors have more opportunities to enjoy Florida's award-winning state parks.

Mcly	Maclay Gardens
W-house	Warehouse

VOIP Phone System

If your office has been converted to the new Voice IP phone system, please remember to use the appropriate extension number when dialing between these offices to avoid long distance phone charges. The prefixes for the offices that have been converted are listed below. To use this feature, dial the appropriate prefix and the last 4 digits of the phone number you are calling. For example, if you are calling the NW District office, whose number is 850-595-8300, you would dial the access number 1 and 8300.

1xxxx	Northwest Regulatory district sites (Pensacola and Panama City)
2xxxx	Northeast Regulatory district sites (Jacksonville)
3xxxx	Central Regulatory district sites (Orlando)
5xxxx	Tallahassee sites (BMC, Douglas, Carr, NW Branch Office, Bureau of Beaches and Coastal Systems, DARM @Magnolia Courtyard, Florida Geological Survey)
7xxxx	Southeast district sites (West Palm Beach, Lake Okeechobee, Port St. Lucie)
8xxxx	South district sites (Ft Myers, Marathon)

When calling between sites that have not been converted to the VOIP phone system, you will need to access SUNCOM long distance to reach your calling destination. Dial 6 then 1 followed by the 10 digit number of the area you are trying to reach.
