

**Charlie Crist**  
Governor

**Situation Report # 53**  
Sunday, June 20, 2010 at 1200 hrs EDT

**David Halstead**  
State Coordinating Officer

**Weather Summary:**

- Light south-southwesterly winds will continue across the northern-central Gulf this afternoon. By Monday the winds will begin to shift to southeasterly. The Loop Current Ring remains detached from the Loop Current and very small amounts of sheen and tar balls will remain entrained in the eddy. A weak tropical wave near Puerto Rico has a very low (0%) chance of development during the next 48 hours.

**Current Situation:**

- Florida beaches are open.**
- Unified Area Command estimates release rate of oil from Deepwater Horizon at 35,000 to 60,000 barrels per day. Optimization of the dual recovery system (LMRP Cap and Q4000) continues; total oil recovered approximately **21,552** barrels.
- This event has been designated a Spill of National Significance.
- Unified Area Command continues with a comprehensive oil well intervention and spill response planning following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans.
- More than 33,000 personnel are working the on and offshore response.
- Oil-water mix recovered: approximately **23.9** million gallons
- Response vessels available: more than **6,100**
- Response aircraft available: **107**
- Dispersant (in gallons): approximately **1,390,000** deployed
- There is no planned use of dispersants in Florida waters.**

**Florida Specific:**

- Dime to five inch-sized tar balls and tar patties continue to be found in northwest Florida.
- Perdido Pass, Pensacola Pass and Destin Pass will be closed with the tide to reduce the amount of oil from entering inland waters. Boom will be deployed across each Pass at flood tide (incoming) and removed at ebb tide (outgoing).
- Oil Containment Boom (in feet) total: **399,450** deployed in Florida.
  - Tier 1: **177,300** / Tier 2: **125,800** / Tier 3: 96,350
- In accordance with established plans, protective booming, staging, and boom maintenance is being conducted along the coast from Escambia to Franklin.
- 367** vessels are deployed in Florida for the Vessels of Opportunity program.
- 313 Qualified Community Responders are actively working the cleanup efforts in the Florida Panhandle.
- According to the NOAA oil plume model, the oil plume remains **32** miles from Mexico Beach and **230** miles from St. Petersburg. **The NOAA trajectories indicate a very slow easterly movement of the oil slick and the Florida Panhandle will continue to be threatened by shoreline contacts as far east as Panama City through Monday. However, the expected shift in winds will likely begin to push much of the oil plume towards the west-northwest later next week, though oil already near shore will continue to be pushed ashore by tidal currents.**
- In addition to \$100,000 for Volunteer Florida to maintain a database for the registration of volunteers, BP has issued over \$75 million in grants to Florida for booming, a national tourism advertising campaign and the state's preparedness and response efforts.
- BP claims in Florida total **16,751** with approximately **\$15,072,798.03** paid.
- The fishery failure declaration for the Gulf of Mexico includes Florida, providing impacted and eligible commercial fisheries the opportunity for federal support; it does *not* close fisheries.

**Florida Information Lines:**

- The Florida Oil Spill Information Line (FOSIL) is available from 8am-6pm EDT daily for citizens' questions at (888) 337-3569.
- For general health/exposures information questions related to the oil spill, contact the Florida Poison Control Center at 1-800-222-1222.
- Two public hotline numbers for oil spill investigation and cleanup:
  - Impacted Wildlife: (866) 557-1401
  - Oiled Shoreline: 1 (877) 2-SAVE-FL or #DEP for cellular devices
- The Florida Department of State has established a hotline for archeological, historical preservation, and tribal lands that may be impacted by the Deepwater Horizon incident: (850) 245-6530.

**Florida Information Websites:**

- Volunteer registration:** [www.VolunteerFlorida.org](http://www.VolunteerFlorida.org) and click "Register to Help"
- Health/environmental advisories:** <http://www.dep.state.fl.us/deepwaterhorizon/health.htm>
- State sampling data:** [www.nrdata.org](http://www.nrdata.org)
- GATOR web mapping application:** <http://map.floridadisaster.org/gator/>
- Recovery related jobs:** <http://gulfrecoveryjobs.employflorida.com/>

**Federal Information Websites:**

- NOAA GeoPlatform, response management application:** <http://www.geoplatform.gov/gulfresponse/>

**State Actions:**

- State Emergency Operations Center (SEOC) is at a Level 1 (Full), operating from 0700 to 1800 EDT, with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor's Executive Orders 10-99, 10-100, 10-106 and 10-132 declared a state of emergency for identified counties along the Florida coast.
- Governor's Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover from the loss of commerce and revenues due to the oil spill.
- Governor Charlie Crist activated Florida's Small Business Emergency Bridge Loan Program to provide emergency, short-term loans to established small businesses in 26 designated counties.
- Conducting daily conference calls with county and emergency management partners, the Federal On-Scene Coordinator, and various Unified Commands.

SERT Personnel - Location	Personnel
Mobile Unified Command, Forward-State Emergency Response Team	25
Florida Peninsula Command, Miami	5
Area Command in New Orleans, Louisiana	2
Escambia	1
Santa Rosa	1

- FEMA is assisting SERT with streamlining financial reimbursement processing.
- The Florida Fish and Wildlife Conservation Commission (FWC) issued a partial harvesting closure of saltwater fish and marine vertebrates (does not apply to oysters, clams, and mussels). This closure covers state waters from the Alabama state line east to the Pensacola Beach water tower (23 miles east and out 9 nautical miles from coastline) from 6/14/10 until modified by a subsequent FWC executive order. Recreational catch and release is allowed.
- A SERT Toxicological Data Analysis Cell is now located at the SEOC to provide consistent scientific analysis and assessment of collected data sampling to inform local and state decision making.
- The Agency for Workforce Innovation and Regional Workforce Boards are identifying and filling jobs related to the oil spill: 5,789 positions advertised, 11,462 applicants referred. Per BP: **3,277 individuals** trained/available to work.
- 35 Florida National Guard (FLNG) personnel on duty; 5 plans personnel are working on scene at the SEOC.
- 14,152 volunteers have registered to respond to Deepwater Horizon.
- Business, Industry, and Economic Development has launched a national radio and print advertising campaign for Florida tourism.
- Conducting daily reconnaissance flights and shoreline patrol from Escambia to Gulf counties for impact. Real time reconnaissance reports are being entered into GATOR.

Visibly oiled wildlife recovered, table does not include marine mammals or turtles.

	Alive*	Released	Died or euthanized	Still in rehabilitation	Dead	Total recovered	Total dead
6/20/10	7		1	26	2	9	
Cumulative	48	2	27		38	93	65

See the consolidated wildlife report updated by noon each day: <http://www.deepwaterhorizonresponse.com/go/doctype/2931/55963>

- The Boom Coordination Cell continues to coordinate additional boom requests. The Innovative Technology Cell continues to assess alternative clean-up technologies suggested by the public and stakeholders.
- The Small Business Administration has issued an Economic Injury Disaster Loan Declaration for the State of Florida. Disaster Loan Outreach Centers are open in 8 counties. Loan Applications:
  - Issued: 370 Accepted: 84 Declined: 16 Approved: 2
  - Loan amount approved: \$255,000.00

**Local States of Emergency**

- Escambia: Expires on 6/25/10
- Santa Rosa: Expires on 6/25/10
- Ocala: Concurrent with State
- Walton: Expires on 6/25/10
- Bay: Expires on 6/24/10
- Gulf: Expires on 6/21/10
- Franklin: Expires on 6/21/10
- Wakulla: Expires on 6/21/10
- Dixie: Expires on 6/24/10
- Sarasota: Expires on 6/21/10

**County EOC Activations**

- Escambia, Level 2 (Partial)
- Santa Rosa, Level 2 (Partial)
- Ocala, Level 2 (Partial)
- Walton, Level 2 (Partial)
- Bay, Level 2 (Partial)
- Gulf, Level 2 (Partial)
- Franklin, Level 2 (Partial)
- Wakulla, Level 2 (Partial)
