

Charlie Crist
Governor

Situation Report # 55
Tuesday, June 22, 2010 at 1200 hrs EDT

David Halstead
State Coordinating Officer

Weather Summary:

- Moderate east to southeasterly winds at 10-15 knots will prevail through the week as a high pressure pattern develops over the region. Offshore, the Loop Current Ring has slightly re-attached to the main Loop Current. However, observations continue to indicate no significant amounts of oil moving toward the Loop Current. A tropical wave moving west-northwestward is producing a large area of disorganized storm activity. There is a medium chance (40%) of this becoming a tropical cyclone within the next 48 hours.

Current Situation:

- Florida beaches are open.
- Unified Area Command estimates release rate of oil from Deepwater Horizon at 35,000 to 60,000 barrels per day. Optimization of the dual recovery system (LMRP Cap and Q4000) continues; total oil recovered approximately 25,836 barrels.
- This event has been designated a Spill of National Significance.
- Unified Area Command continues with a comprehensive oil well intervention and spill response planning following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans.
- More than 36,000 personnel are working the on and offshore response.
- Oil-water mix recovered: nearly 25 million gallons
- Response vessels available: more than 6,310
- Response aircraft available: 95
- Dispersant (in gallons): approximately 1,453,000 deployed
- There is no planned use of dispersants in Florida waters.

Florida Specific:

- Dime to five inch-sized tar balls and tar patties continue to be found in northwest Florida.
- Perdido Pass, Pensacola Pass and Destin Pass will be closed with the tide to reduce the amount of oil from entering inland waters. Boom will be deployed across each Pass at flood tide (incoming) and removed at ebb tide (outgoing).
- Oil Containment Boom (in feet) total: 518,661 deployed in Florida.
 - Tier 1: 202,600 / Tier 2: 132,800 / Tier 3: 183,261
- In accordance with established plans, protective booming, staging, and boom maintenance is being conducted along the coast from Escambia to Franklin.
- 387 vessels are deployed in Florida for the Vessels of Opportunity program.
- 674 Qualified Community Responders are actively working the cleanup efforts in the Florida Panhandle.
- According to the NOAA oil plume model, the oil plume remains 17 miles from Panama City and 227 miles from St. Petersburg. NOAA near shore trajectories continue to show direct onshore impacts into Walton County through Thursday with the uncertainty line extending into Bay County.
- In addition to \$100,000 for Volunteer Florida to maintain a volunteer registration database, BP has issued over \$75 million in grants to Florida for booming, a national tourism advertising campaign, and the state's preparedness and response efforts.
- BP claims in Florida total 17,923 with approximately \$15,988,477.02 paid.
- A US Coast Guard representative for Unified Command Mobile is on scene at the state EOC coordinating response efforts as the Deputy Incident Commander for Florida.

Florida Information Lines:

- The Florida Oil Spill Information Line (FOSIL) is available from 8am-6pm EDT daily for citizens' questions at (888) 337-3569.
- For general health/exposures information questions related to the oil spill, contact the Florida Poison Control Center at (800)-222-1222.
- Two public hotline numbers for oil spill investigation and cleanup:
 - Impacted Wildlife: (866) 557-1401
 - Oiled Shoreline: (877) 2-SAVE-FL or #DEP for cellular devices
- The Florida Department of State has established a hotline for archeological, historical preservation, and tribal lands that may be impacted by the Deepwater Horizon incident: (850) 245-6530.

Florida Information Websites:

- Volunteer registration: www.VolunteerFlorida.org and click "Register to Help"
- Health/environmental advisories: <http://www.dep.state.fl.us/deepwaterhorizon/health.htm>
- State sampling data: www.nrdata.org
- GATOR web mapping application: <http://map.floridadisaster.org/gator/>
- Recovery related jobs: <http://gulfrecoveryjobs.employflorida.com/>

Federal Information Websites:

- NOAA GeoPlatform, response management application: <http://www.geoplatform.gov/gulfresponse/>

State Actions:

- State Emergency Operations Center (SEOC) is at a Level 1 (Full), operating from 0700 to 1800 EDT, with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor's Executive Orders 10-99, 10-100, 10-106 and 10-132 declared a state of emergency for identified counties along the Florida coast.
- Governor's Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover from the loss of commerce and revenues due to the oil spill.
- Governor Charlie Crist activated Florida's Small Business Emergency Bridge Loan Program to provide emergency, short-term loans to established small businesses in 26 designated counties.
- Conducting daily conference calls with county and emergency management partners, the Federal On-Scene Coordinator, and various Unified Commands.

SERT Personnel - Location	Personnel
Mobile Unified Command, Forward-State Emergency Response Team	24
Florida Peninsula Command, Miami	5
Area Command in New Orleans, Louisiana	2
Sector St. Petersburg	2
Escambia	1
Santa Rosa	1

- FEMA is assisting SERT with streamlining financial reimbursement processing.
- Florida Fish and Wildlife Conservation Commission (FWC) executive order (EO 10-29) temporarily closes a portion of coastal state waters offshore of Escambia County to the harvest of saltwater fish, crabs and shrimp. Recreational catch and release is allowed.
- A SERT Toxicological Data Analysis Cell is providing consistent scientific assessments of collected data sampling to inform local and state decision making.
- The Agency for Workforce Innovation and Regional Workforce Boards are identifying and filling jobs related to the oil spill: 6,382 positions advertised; 16,242 applicants referred. Per BP: 3,435 individuals trained/available to work.
- 84 Florida National Guard (FLNG) personnel on duty; 5 plans personnel are working on scene at the SEOC.
- 14,679 volunteers have registered to respond to Deepwater Horizon.
- Business, Industry, and Economic Development has launched a national radio and print advertising campaign for Florida tourism.
- Conducting daily reconnaissance flights and shoreline patrol from Escambia to Gulf counties for impact. Real time reconnaissance reports are being entered into GATOR.

Visibly oiled birds recovered.

	Alive*	Released	Died or euthanized	Still in rehabilitation	Dead	Total recovered	Total dead
6/22/10	4		0	31	6	10	
Cumulative	60	2	27		44	104	71

One visibly oiled dolphin and two visibly oiled sea turtles have also been rescued during this event. See the consolidated wildlife report updated by noon each day: <http://www.deepwaterhorizonresponse.com/go/doctype/2931/55963>

- The Boom Coordination Cell continues to coordinate additional boom requests. The Innovative Technology Cell continues to assess alternative clean-up technologies suggested by the public and stakeholders.
- The Small Business Administration has issued an Economic Injury Disaster Loan Declaration for the State of Florida. Disaster Loan Outreach Centers are open in 8 counties. Loan Applications:
 - Issued: 391 Accepted: 103 Declined: 19 Approved: 7
 - Loan amount approved: \$575,600

Local States of Emergency

- Escambia: Expires on 6/25/10
- Santa Rosa: Expires on 6/25/10
- Okaloosa: Concurrent with State
- Walton: Expires on 6/25/10
- Bay: Expires on 6/24/10
- Gulf: Expires on 6/28/10
- Franklin: Expires on 6/28/10
- Wakulla: Expires on 6/28/10
- Dixie: Expires on 6/24/10
- Sarasota: Expires on 6/29/10

County EOC Activations

- Escambia, Level 2 (Partial)
- Santa Rosa, Level 2 (Partial)
- Okaloosa, Level 2 (Partial)
- Walton, Level 2 (Partial)
- Bay, Level 2 (Partial)
- Gulf, Level 2 (Partial)
- Franklin, Level 2 (Partial)
- Wakulla, Level 2 (Partial)
