

Charlie Crist
Governor

Situation Report # 94
Saturday, July 31, 2010 at 1200 hrs EDT

David Halstead
State Coordinating Officer

Weather Summary:

- Light northerly winds will turn to the west-southwest this afternoon and persist at through Monday with winds staying near or below 10 knots. Calm seas of 2 feet or less are expected through early next week. A 30-50% chance of rain is forecast onshore and 20% offshore this weekend. Despite shower activity, heat indices will continue to reach dangerous levels near or above 110 degrees for several hours this weekend and a Heat Advisory is in effect for most of North Florida today and may be extended into Sunday and Monday. An Excessive Heat Watch is in effect for the western panhandle on Sunday for values possibly nearing 112 degrees. In the tropics, two tropical waves have a low (20%) chance of development within the next 48 hours; one in the central Caribbean Sea and another in the far eastern Atlantic.
- Florida beaches are open.**
- Currently Deepwater Horizon is not discharging any oil into the Gulf of Mexico. Active monitoring continues during the integrity test; there has been no evidence of the well not having integrity. The DDIII rig will make a clean out run with a drill bit on drill pipe prior to preparing to run casing. Unified Area Command continues with a comprehensive oil well intervention and spill response planning following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans.
- The National Oceanic and Atmospheric Administration (NOAA) announced yesterday that a new analysis shows Southern Florida, the Florida Keys, and the East Coast are unlikely to experience any effects from the remaining oil on the surface of the Gulf.
- This event has been designated a Spill of National Significance.
- More than 32,600 personnel are working the on and offshore response.
- Oil-water mix recovered: nearly 34.7 million gallons. Dispersant: more than 1.84 million gallons deployed.
- Response vessels available: more than 4,400
- Response aircraft available: 97
- Presently monitoring security situations.

Florida Specific:

- All supplemental Tier 3 boom is being removed and stored in the Northwest Florida counties.
- Tar balls and light sheen continue to be reported in Northwest Florida.
- Although sporadic sightings of tar balls may continue, Florida's shoreline is not expected to receive additional impacts over the next 72 hours.
- Five state-leased skimmers remain on **standby in Northwest Florida to protect sensitive inland water bodies. These skimmers are operating** out of Escambia, Okaloosa, Bay, Gulf and Franklin Counties.
- Oil Containment Boom (in feet) total: 42,461 deployed in Florida. Tier 1 & Tier 2: 378,800 / Tier 3: 421,261. In accordance with established plans, protective booming, staging, and boom maintenance is being conducted along the coast from Escambia to Franklin. 138 vessels are deployed in Florida for the Vessels of Opportunity program. 629 Qualified Community Responders are working in the Florida Panhandle today.
- Federal Fishery closure, west of Cape San Blas to state line. 26,388 sq mi of southeast portion has been reopened. (see NOAA FB10-060) **A portion of coastal state waters offshore of Escambia County reopened for finfish but remains closed for the harvest of crabs and shrimp.**
- The NOAA Oil Spill Trajectory shows the oil plume 150 miles from Pensacola, and 215 miles from Panama City. NOAA forecast oil trajectories keep significant patches of oil to remain well south and west of Florida. Though no direct oil impacts are expected through Sunday, minor tarball impacts are still possible. Offshore, no oil has been observed within or moving towards Eddy Franklin for several weeks and there is no clear path for oil to enter the Florida Straits.
- In addition to \$100,000 for Volunteer Florida to maintain a volunteer registration database, BP has issued over \$82 million in grants to Florida for booming, tourism advertising, and state preparedness and response efforts. An additional \$500,000 has been issued by BP to fund innovative technology solutions for Okaloosa County.
- BP claims in Florida total 35,441 with approximately \$ 50,326,541.88 paid.
- BP Has assumed direct financial responsibility for approx \$9 mil of boom contracts for Florida counties.

Florida Information Lines:

- The Florida Oil Spill Information Line (FOSIL) is available from 8am-6pm EDT daily.
 - English - (888) 337-3569 / TDD - (800) 955-8771 / Voice - (800) 955-8770 / Spanish - (877) 955-8773 / Haitian Creole - (877) 955-8707
- For general health/exposures information questions related to the oil spill, contact the Florida Poison Control Center at (800) 222-1222.
- Two public hotline numbers for oil spill investigation and cleanup:
 - Impacted Wildlife: (866) 557-1401
 - Oiled Shoreline: (877) 2-SAVE-FL or #DEP for cellular devices
- The Florida Department of State has established a hotline for archeological, historical preservation, and tribal lands that may be impacted by the Deepwater Horizon incident: (850) 245-6530.
- To confirm legitimate charities and determine if an organization is registered with the state, call Florida Department of Agriculture and Consumer Services (FDACS) (800) 435-7352 or www.800helpfla.com.

Information Websites:

- Volunteer registration:** www.VolunteerFlorida.org and click "Register to Help"

- NOAA GeoPlatform, response management application:** <http://www.geoplatform.gov/gulfresponse/>

State Actions:

- State Emergency Operations Center (SEOC) is at a Level 1 (Full), operating from 0700 to 1800 EDT, with Florida Department of Environmental Protection (FDEP) as the lead agency.
- Governor's Executive Orders 10-99, 10-100, 10-106 and 10-132 declared a state of emergency for identified Florida coastal counties.
- Governor's Executive Order 10-101 established the Gulf Oil Spill Economic Recovery Task Force, which will facilitate efforts by Florida businesses and industries to recover the loss of commerce and revenues due to the oil spill.
- Governor's Executive Order 10-169, authorizing property appraisers to provide interim assessments of properties affected by the Deepwater Horizon oil spill disaster.
- Four Florida branch offices are fully operational in Northwest Florida. These branch offices bring together federal, state and local agencies to streamline response efforts.
- Conducting daily conference calls with county and emergency management partners, the Federal On-Scene Coordinator, and various Unified Commands.

SERT Personnel - Location	Personnel
Forward-SERT, Mobile Unified Command	14
Florida Peninsula Command, Miami	6
St. Petersburg Branch	1
Area Command in New Orleans, Louisiana	2
Branch 1	3
Branch 2	5
Branch 3	5
Branch 4	2

- A SERT Toxicological Data Analysis Cell is providing consistent scientific assessments of collected sampling to inform local/state decision making.
- The Agency for Workforce Innovation and Regional Workforce Boards are identifying and filling jobs related to the oil spill: 14,571 positions advertised; 45,758 applicants referred.
- 128 Florida National Guard personnel on duty at various duty posts in the Deepwater Horizon area of operations.
- 19,742 volunteers have registered to respond to Deepwater Horizon. 25,403 volunteer hours have been worked.
- AmeriCorps, National Civilian Community Corps members are assisting with models for a community-run Citizen Information Station (CIS).
- Conducting daily reconnaissance flights and shoreline patrol from Escambia to Franklin Counties for impact. Real time reconnaissance reports are being entered into SERT GATOR.
- Currently, Florida's coast has 9 primary decontamination sites and 2 secondary sites for response vessels and 2 that are being operated for commercial vessels. 3 sites for recreational vessel decontamination have been established and 18 additional recreational vessel sites are in negotiations with BP.

Recovered Oiled Wild Life: 07/30/10

	Recovered alive*	Released	Died or euthanized	Still in Rehab	Recovered Dead	Total Recovered	Total Dead
Birds	1	0	0	50	1	2	
Total	186	14	122		167	353	289
Turtles	3	1	0	48	0	3	
Total	58	9	1		1	59	2

See the consolidated wildlife report updated by noon each day:

- The Boom Coordination Cell continues to coordinate additional boom requests. The Innovative Technology Cell continues to assess alternative clean-up technologies suggested by the public and stakeholders.
- Emergency Bridge Loan Program, cumulative totals- Applications: 61; Declined: 6; Approved: 55; Amount: \$1,355,000.00
- The Small Business Administration issued an Economic Injury Disaster Loan Declaration for the State of Florida. Outreach Centers are open in 8 counties. Total Loan Applications: Issued: 680 Accepted: 222 Declined: 76 Approved: 44 Loan amount approved: \$4,545,000.00

Local States of Emergency

- Escambia: Expires on 8/6/10
- Santa Rosa: Expires on 8/06/10
- Okaloosa: Concurrent with State
- Walton: Expired
- Bay: Expires on 8/06/10
- Gulf: Expires on 8/3/10
- Franklin: Expires on 8/2/10
- Wakulla: Expires on 8/2/10
- Jefferson: Expired
- Dixie: Expired
- Sarasota: Expires on 8/3/10

County EOC Activations

- Escambia, Level 3
- Santa Rosa, Level 2 (Partial)
- Okaloosa, Level 2 (Partial)
- Walton, Level 3
- Bay, Level 2 (Partial)
- Gulf, Level 2 (Partial)
- Franklin, Level 3
- Wakulla, Level 2 (Partial)
- Jefferson, Level 3
