B Project Information

| | | | |
|-----------------------------------------------------------------------------------------------|-----------------------------------------|---------------------------------------------------------------------------------------------------|----------------------------------|
| Project Name Water Quality Monitoring and Restoration of 15 Coastal Dune Lakes | | | |
| Location (e.g. John Smith National Wildlife Refuge) Santa Rosa Beach, Walton County | | | |
| State(s) (Use 2-letter abbreviations separated by commas) FL | County/Parish Walton | Watershed/Basin Gulf of Mexico | |
| Latitude (decimal degrees) 0 | Longitude (decimal degrees) 0 | Project Size (Choose one) <input type="text"/> miles 50 acres <input type="text"/> tons | Affected Area 50 acres |

C Project Description

Please provide more information about the proposed project. (Limit 2,750 characters.)

In the days following the Deepwater Horizon Oil Spill, Walton County constructed sand berms and installed artificial barriers to protect the coastal dune lakes. Walton County, through Florida Lakewatch, has established monitoring stations and collected water samples from each of these stations to document pre-oil spill baseline conditions. This proposal is to re-monitor these stations bi-annually for 10 years to determine potential post-oil spill impacts to water and sediment quality.
