Continued meetings to discuss revisions are scheduled for next week.
- The State approved the following document(s)/plan(s):
 - Shoreline Inspection Report (SIR-(1)) - for segment FLES1-047. This segment met shoreline cleanup criteria and in accordance with the SCCP will be transferred into SCAT monitoring for a minimum of 30 days prior to conducting a second SIR (SIR-(2)).
 - Shoreline Inspection Report (SIR-(2)) - for segment FLES3-027. This segment met shoreline cleanup criteria and will be removed from the response.
