

FLORIDA DEEPWATER HORIZON RESPONSE WEEKLY UPDATE

February 8, 2012

Gulf Coast Incident Management Team/Florida Branch

- Gulf Coast Incident Management Team (GCIMT) remains active in New Orleans with the Florida Branch Office located in Mary Esther, FL.
- Supporting the GCIMT is Darryl Boudreau (FDEP), State On-Scene Coordinator, and George Henderson (FWC), State Scientific Support Coordinator. Darryl and George both staffed the GCIMT office.
- Representatives from the U.S. Coast Guard (USCG), FDEP and BP are staffing the Florida Branch Office.
- The Florida Branch, is supervising the activities of two Divisions, staffed by BP and their contract personnel with USCG oversight:
 - Division 1 - Western Escambia County (Perdido Key)
 - Division 2 - Eastern Escambia (Pensacola Beach), Santa Rosa, Okaloosa, Walton, Bay, Gulf, Franklin and Wakulla Counties.

Florida Activities

- A weekly FL command conference call for response activities is held every Wednesday at 8 am CDT. This call includes personnel supporting the GCIMT, FL Branch (FDEP, USCG, & BP Branch Director) and Department of Emergency Management (DEM).
- Three Shoreline Cleanup Assessment teams (SCAT), that include FDEP personnel, continue to conduct scientific assessments of the FL coast on a daily basis. Teams document oil found and provide cleanup recommendations.
- Product continues to be collected, documented and weighed by segment on a daily basis.

| Weekly Totals (Lbs) | | | | | | | |
|---------------------|-----------|----------|--------|-------|------|----------|-----------|
| Counties | Escambia | Okaloosa | Walton | Bay | Gulf | Franklin | Total |
| Material Collected | 778.34 | 5.17 | 1.69 | 0 | 0 | 0 | 785.20 |
| Oiled Debris | 0.75 | 0 | 3 | 0 | 0 | 0 | 3.75 |
| Total- to date | 2,797,094 | 39,852 | 15,614 | 4,019 | 329 | 138 | 2,857,046 |

*Material collected totals represent work completed through these dates 2.02.12 - 2.08.12 - Note Bay, Gulf, and Franklin Counties are out of active response.

Florida Activities continued

- The final version of the GCIMT Phase III Response Activities Completion Plan is still under review by the four states.
- A meeting with the USCG, AL, MS and FL SOSC's and BP is scheduled on the 9th to discuss concerns over current operations and segment completion requests.
- Captain Walker, FOOSC, will meet with the SOSC, FL Branch DEP Liaison, USCG Director, BP Director, Response Lead and Contractor Lead on Friday the 10th to discuss operations and tour Escambia and Okaloosa County beaches.
- Florida will be providing personnel to staff two additional SCAT teams, Team 10 and 7 which will be stood up on February 10th and 17th, respectively. The additional teams are required to assist with the number of segment completion requests being submitted and subsequent Shoreline Inspection surveys.
- Operations collected 276 lbs of material on February 7th from a submerged oil mat, approximately 10 foot by 10 foot in size, in the intertidal zone of segment FLES1-037 which is located in the Fort McRee area of Perdido Key Gulf Islands National Seashore. Crews will continue to work as directed under the current STR-FL-4-007c, (manual surface cleaning only, maximum depth of 6 inches; NPS has the discretion to continue beyond 6 inches on a case by case basis) should any additional oil surface.
- The State approved the following document(s)/ plan(s):
 - Shoreline Treatment Recommendation- STR-FL-4-016. STR was developed to clean a portion of segment FLES1-045.
 - Shoreline Inspection Report (SIR-(1)) - for segments FLWA1-008 and 012; and FLOK2-006. These segments met shoreline cleanup criteria and in accordance with the SCCP will be transferred into SCAT monitoring for a minimum of 30 days prior to conducting a second SIR (SIR-(2)).
 - Shoreline Inspection Reports (SIR-(2)) - for segments FLES2-037, 038 and 049. These segments met shoreline cleanup criteria and will be removed from the response.
