

FLORIDA DEEPWATER HORIZON RESPONSE WEEKLY UPDATE

March 28, 2012

Gulf Coast Incident Management Team/Florida Branch

- Gulf Coast Incident Management Team (GCIMT) remains active in New Orleans with the Florida Branch Office located in Mary Esther, FL.
- Supporting the GCIMT is Darryl Boudreau (FDEP), State On-Scene Coordinator, and George Henderson (FWC), State Scientific Support Coordinator. Darryl and George both staffed the GCIMT office this week.
- Representatives from the U.S. Coast Guard (USCG), FDEP and BP are staffing the Florida Branch Office.
- The Florida Branch, is supervising the activities of two Divisions, staffed by BP and their contract personnel with USCG oversight:
 - Division 1 - Western Escambia County (Perdido Key)
 - Division 2 - Eastern Escambia (Pensacola Beach), Santa Rosa, Okaloosa and Walton Counties.

Florida Activities

- A weekly FL command conference call for response activities is held every Wednesday at 0830 CDT. This call includes personnel supporting the GCIMT, FL Branch (FDEP, USCG, & BP Branch Director) and Department of Emergency Management (DEM).
- Three Shoreline Cleanup Assessment teams (SCAT), that include FDEP personnel, continue to conduct scientific assessments of the FL coast on a daily basis. Teams document oil found and provide cleanup recommendations.
- Product continues to be collected, documented and weighed by segment on a daily basis.

Weekly Totals (Lbs)							
Counties	Escambia	Okaloosa	Walton	Bay	Gulf	Franklin	Total
Material Collected	421.24	0.01	6.47	0	0	0	427.72
Oiled Debris	25.00	0	0	0	0	0	25.00
Total- to date	2,801,338	39,862	15,664	4,019	329	138	2,861,351

*Material collected totals represent work completed through these dates 3.22.12 - 3.28.12 - Note Bay, Gulf, and Franklin Counties are out of active response.

Florida Activities continued

- The SOSC, State Liaison, and DEP SCAT personnel toured the beach with NOAA, the USCG Environmental Lead, and DOI representatives on March 26th. The group looked at both amenity and non-amenity beach segments that have been in extended SCAT monitoring with no active Shoreline Treatment Recommendation (STR) to discuss an appropriate path forward for the segments.
- 'Green Box' meeting was held on March 28th to discuss advancing one segment forward in the segment completion process. The outcome of the meeting resulted in the FOSC advancing segment FLWA2-006 into SCAT monitoring instead of the segment returning to Operations.
- The FOSC and SOSC will be meeting with Okaloosa and Walton Counties on April 2nd and Santa Rosa and Escambia Counties on April 3rd. The FOSC will be discussing his position on the Response and soliciting input from the Counties on any issues or concerns they may have regarding the Response.
- The State approved the following document(s)/ plan(s):
 - Shoreline Inspection Report (SIR-(1)) - for segments FLOK2-024, FLWA2-032, 034 and 035. These segments met shoreline cleanup criteria and in accordance with the SCCP will be transferred into SCAT monitoring for a minimum of 30 days prior to conducting a second SIR (SIR-(2)).
