

Florida Circumnavigational Saltwater Paddling Trail Data Book

To be used in conjunction with written guides and maps on Florida Office of Greenways and Trails (OGT) website (www.FloridaGreenwaysandTrails.com), and Google Earth maps and detailed campsite information on Florida Paddling Trails Association (FPTA) website (www.floridapaddlingtrails.com). Relevant pages of the Florida Atlas will come in handy for town stops. Note: Mileage will likely be longer in certain sections due to the need to paddle farther offshore at low tide. Estimated total mileage for the trail, including paddling to Key West and back, is around 1,515 miles. This total can be more or less depending on how many points of interest are visited or if a paddler skips campsites.

Thru paddlers and FPTA volunteers contributed to this document. Feedback is welcome. Please contact Doug Alderson of OGT at doug.alderson@dep.state.fl.us.

PC = Primitive campsite	POI = Point of Interest	O = Outfitters
C = Campground	LA = Laundromat	W = Water
L = Lodging	I = Internet computer	PO = Post Office
R = Restaurant	S = Shower	G = medium/lg supermarkets
B = Bathroom	PI = Put-In	g = convenience/camp stores

Note: The GPS i.d. # is for GPS points that can be downloaded directly onto your GPS unit. Some numbers are different than the mile numbers either because they are on alternate routes or off the trail, or because they have been rounded off since decimals cannot be used. To download GPS points directly for a segment or the entire trail, contact dean.rogers@dep.state.fl.us.
