

## BUREAU OF PARK POLICE

Park Police are state law enforcement officers with full powers of arrest. Park Police protect more than 800,000 acres of Florida's state-owned lands, providing law enforcement and public service within state parks, preserves, recreational areas, greenways and trails. Officers also patrol more than four million acres of submerged coastal and aquatic managed areas that include 41 aquatic preserves, three national estuarine research reserves, and the Florida Keys National Marine Sanctuary.

## BUREAU OF ENVIRONMENTAL INVESTIGATIONS

Special Agents from the Bureau of Environmental Investigations (BEI) are sworn state law enforcement investigators with full powers of arrest in Florida and its jurisdictional waters. Special Agents investigate crimes and violations that degrade Florida's environment, including the improper storage, transport, or disposal of hazardous waste, destruction or illegal filling of wetlands, or the burying or burning of prohibited materials.

## Dedicated to excellence in public service and environmental protection

The Division of Law Enforcement (DLE) is integral to the success of the Florida Department of Environmental Protection's mission. As a broadly constituted state law enforcement agency, DLE promotes environmental crime awareness through public and industry education. As a deterrent to environmental crime, DLE takes enforcement actions against those who seek to profit from criminal environmental acts.

DLE is responsible for statewide environmental law enforcement as well as providing law enforcement services within state parks, greenways, trails, aquatic preserves and other lands managed by the DEP. Activities include environmental education and enforcement, environmental crime investigation, protection of public safety through proactive patrol on DEP-managed recreational lands, response to natural disasters, civil unrest, hazardous material incidents and oil spills.

## BUREAU OF EMERGENCY RESPONSE

The Bureau of Emergency Response (BER) responds to environmental pollution threats in every form. Responding to incidents ranging from petroleum spills caused by vehicle accidents to chemical plant explosions to coastal oil spills, BER provides technical and on-site assistance to ensure threats to the environment and human safety are quickly and effectively contained and abated.

## TRAINING CENTER

The Training Center works closely with the Florida Department of Law Enforcement's Division of Law Enforcement Professionalism, the Florida Criminal Justice Standards and Training Commission, and other Florida law enforcement training centers to provide consistent and current law enforcement information and training to DEP law enforcement officers.

The Training Center provides more than 50 training courses each year and more than 300 online courses.

*DLE Defensive Tactics instruction*

## ENVIRONMENTAL RESPONSE TEAM

The Environmental Response Team (ERT) is a multi-agency team that augments local and regional response capabilities to suspected criminal activity including potential terrorist events.
