C. Certification

I hereby certify I have read and will conduct the above activities in accordance with the criteria and Specific Conditions of Rule 17-312. . . (fill in rule number), Florida Administrative Code, and in accordance with the General Conditions of Rules 17-4.530 and 17-4.540, Florida Administrative Code. Activities conducted pursuant to the above general permit may commence thirty (30) days after receiving written acknowledgement that notice has been provided to the Department of Environmental Regulation or delegated Water Management District, along with any required additional documentation which may be required to fulfill the requirements of the general permit, unless the Department responds that the proposed work does not qualify for a general permit. Written acknowledgement may include certified mail return receipt. Projects not in compliance with the general permit criteria or undertaken without proof of notice to the Department are considered as being undertaken without a permit and shall be subject to enforcement, which may result in civil or criminal penalties of up to \$10,000 per day for each day during which the violation occurs.

I understand I may have to provide any additional information/data that may be necessary to provide reasonable assurance or evidence that the proposed project will comply with the applicable State Water Quality Standards or other environmental standards both before construction and after the project is completed.

I further acknowledge that work pursuant to a general permit may be subject to review and approval of other Federal, State, or local agencies and that construction will not commence until all necessary approvals have been received. Further, the work shall be conducted in a manner which does not violate applicable water quality standards.

In addition, I agree to provide entry to the project site for inspectors with proper identification or documents as required by law from the environmental agencies for the purpose of inspecting the site. Further, I agree to provide entry to the project site for such inspectors to monitor permitted work.
