

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-1.002	Definitions	Rule Amendment	State land acquisition procedures are for voluntary, negotiated acquisitions. Provides for uniform and efficient procedures for the acquisition of interests in real property, and donation of such interests, title to which will vest in the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida.	18-1.002(7). Definitions. "Approved appraisal organization" is defined as "an organization that is a member of the Appraisal Foundation, a foundation authorized by the United States Congress as the source of appraisal standard and appraiser qualifications." 18-1.007(2)(c)2, gives preference for contracting to appraisers receiving designations from "approved appraisal organizations". The proposed rule changes is to update and revise the definition of approved appraisal organizations. The revised definition will be "the Appraisal Institute and any organization that is a member of the Appraisal Foundation, a foundation authorized by the United States Congress as the source of appraisal standards and appraiser qualifications." This rule change will continue to provide a pool of well qualified appraisers for state appraisal assignments.	Technical Change	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-1.002	Definitions	Rule Amendment	State land acquisition procedures are for voluntary, negotiated acquisitions. Provides for uniform and efficient procedures for the acquisition of interests in real property, and donation of such interests, title to which will vest in the Board of Trustees.	18-1.002(29). Definitions. "USPAP" is defined as "the Uniform Standards of Professional Appraisal Practice, effective January 1, 2010..." 18.1006(1), states "Appraisal reports obtained for the acquisition, disposition, leasing or granting of easements on state land are to conform to the USPAP." These standards are updated biannually. This requires the reference in rule to be revised every two years. The proposal is to remove the USPAP requirement from rule and move the requirement to the Supplemental Appraisal Standards for Board of Trustees Land (Supplemental Standards). The Supplemental Standards are referenced in rule; thus, the requirements for appraisal standards are not diminished by this proposed rule change. The benefit is that the rule making process does not have to be done every two years only to update the reference to the current version of USPAP. A revised version of USPAP became effective 01/01/2012.	Technical Change	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-1.013	Donations	Rule Amendment	State land acquisition procedures are for voluntary, negotiated acquisitions. Provides for uniform and efficient procedures for the acquisition of interests in real property, and donation of such interests, title to which will vest in the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida.	18-1.013 (1)(b) should be amended similar to: The Division may waive the requirement of the evidence of marketability for donations of property assessed by the county at \$10,000 or less, where the Division finds, based upon the review of the status of title, it is reasonable to waive marketability and that there is no apparent impediment to management of the property by the state.	Update Rule	None	No
18-2.018	Policies, Standards, and Criteria for Evaluating, Approving or Denying Requests to use Uplands	Rule Amendment	Provides criteria for lessees and sublessees to prepare operational reports.	Revise for consistency with current statute (statute calls for land use plans, rule calls for operational plans).	Technical Change	None	No
18-2.020	Payments and Consideration	Rule Amendment	Provides criteria for payments and consideration for private leases and disposition of surplus sales.	Amend 18-2.020(1)(a) to require consideration for private leases. Take into consideration appraisal services, instead of being based on appraisal services, to clarify meaning and make consistent with the language for the disposition of land.	Update Rule	None	No
18-2.020	Payments and Consideration	Rule Amendment	Provides criteria for payments and consideration for private leases and disposition of surplus sales.	Amend 18-2.020(2)(a) to delete the requirement for appraisals for parcels valued in excess of \$100,000 since this is already directed by statute.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-2.020	Payments and Consideration	Rule Amendment	Provides criteria for payments and consideration for private leases and disposition of surplus sales.	Amends 18-2.020(2)(b) to allow for expanded sales options for parcels with values over \$100,000. To be utilized to sell properties over \$100,000 that have been unsuccessfully offered for sale by competitive bid, at or below appraised value at least once and to provide that those parcels may be sold by any reasonable means including competitive bid, auction, real estate services and negotiated direct sales. This will eliminate the cost and time involved with multiple bids. Currently, no matter how many times a property valued at over \$100,000 has been bid unsuccessfully, it must only be sold by competitive bid, even if a buyer has been identified or has offered to purchase at or over appraised value.	Update Rule	None	No
18-2.020	Payments and Consideration	Rule Amendment	Provides criteria for payments and consideration for private leases and disposition of surplus sales.	Amend 18-2.020(7)(a) reducing time frame for notice in newspaper publication from once a week for 3 consecutive weeks to once a week for two consecutive weeks. This amendment will reduce time and costs while still providing adequate notice.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-2.021	Land Management Planning and Land Use Evaluation Procedures of the Acquisition and Restoration Council	Rule Amendment	Only 253.03 is currently listed as Specific Authority. 253.022 was deleted in 1996.	Revise to add 253.034, 259.032 and 259.035 to the Specific Authority section and correct the law implemented from 253.022, which does not exist to 259.035, which is correct.	Technical Change	None	No
18-14.001	Definitions	Rule Amendment	Defines terms used in this chapter.	A Notice of Withdrawal was published 3/2/12 because the amendments could not be completed within the rulemaking time limits. Amendments will clarify and streamline the method for notifying suspected responsible parties of potential violations, required corrective actions, and assessment and collection of administrative fines for violations on state-owned lands. The definitions need updating.	Update Rule	None	No
18-14.002	Determination of Fines	Rule Amendment	Lists considerations in determining a fine; states when fines can be waived; provides fine amounts for first and second offenses.	Same as above. Also, changes would increase the fine amounts from those set in 1985; clarify what criteria will be used to base the fines; add ability to not impose fines for the first offense if certain criteria are met (i.e. immediate corrective action).	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-14.003	Violations	Rule Amendment	Explains what activities are a violation	Same as above. Also, clarify listed activities and situations; and add that it is also a violation to fail to comply with an order of the Board of Trustees or of a lease, easement or other authorization.	Update Rule	None	No
18-14.005	Imposition and Collection of Fines	Rule Amendment	Explains how to notify a suspected violator, requires DEP to issue a formal Notice of Violation to provide initial notification of potential violation; allow for a period to correct; then requires second formal action to assess and collect fines.	Same as above. Also, changes will allow DEP to provide more flexibility in resolving enforcement cases by issuing a Warning Letter instead of a Notice of Violation and then to be able to collect fines without having to send a second letter. The changes would allow DEP to resolve cases quicker and still collect any necessary penalties without having to go through a more formal process.	Update Rule	None	No
18-21.002	Scope and Effective Date	Rule Amendment	States that these are rules of DEP and Dept. of Agriculture and Consumer Services; rules don't affect previous actions, and do apply to expansions.	Contains subsections that are unnecessary, duplicative of statute, or that relate to Rule 18-21.00405, which was repealed 3-12-12.	Update Rule	None	No
18-21.003	Definitions	Rule Amendment	Defines terms used in the chapter	Delete definitions (28) and (69) that are not needed because they are repetitive of statutory definitions. Update other definitions as needed.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-21.004	Management Policies, Standards and Criteria	Rule Amendment	Details management policies, standards and criteria that apply in determining whether to approve, modify or deny requests for activities on state-owned submerged land. Addresses general proprietary, resource management, riparian rights, private residential multi-family docks and piers, special events, activities at sovereign and state-owned springs and spring runs, and general conditions that apply to all authorizations.	Delete unnecessary language addressed in other rules that exceeds the authority of the Board of Trustees, that is outdated, or that is repetitive of statutory language. Also revise language so that provisions of the rule can apply to both "public" and "private" uses. For subsection (6), Standards and Criteria for Activities At Sovereignty and State-Owned Spring Runs-- need to clarify that activities that are on privately owned submerged lands or private uplands are not affected by the rule - exceeds the authority of the Board of Trustees.	Update Rule	None	No
18-21.0051	Delegation of Authority	Rule Amendment	Explains which size and types of projects require review by the Board of Trustees; the rest are delegated to the Secretary of DEP, the Commissioner of Agriculture, and the Governing Boards of the Suwannee River, St. Johns River, Southwest Florida, and South Florida Water Management Districts. However, any project expected to result in heightened public concern is not delegated.	Increase the number of projects that can be authorized locally by DEP and WMD offices rather than require review by the Governor and Cabinet sitting as the Board of Trustees. This will reduce processing time by approximately 45 days and eliminate the costs to the public and agency staff. [The BOT approved rulemaking 4/5/11, which was after the 2011-2012 Regulatory Plan was finalized.]	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-21.008	Applications for Lease	Rule Amendment	Lists information needed to apply for a Lease	Specify the standard lease term duration to reduce renewal processing paperwork, time, and expense burdens on public and staff. Amend subsection 18-21.800(a) to address HB 0013: HB0013, The maximum initial term of a standard lease for a private residential single-family dock or pier, private residential multi-family dock or pier, or private residential multi-slip dock or pier, or private residential multi-slip dock is 10 years. A lease is renewable for successive terms of up to 10 years if the parties agree and the lessee complies with all terms of the lease and all applicable laws and rules. The Billing Information Form will be updated (possibly via a technical change) to remove the social security number, and add a line to obtain e-mail address to help in reducing cost and becoming paperless.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-21.0082	Applications for Special Event Authorizations	Rule Amendment	Lists information needed to apply for the various types of special event activities	Incorporate revisions to the Billing Information Form 18-21.900(1) to improve clarity and accuracy of information for public and staff; this form also needs to be incorporated by reference in this section to comply with s. 120.54(1)(i)5, F.S. Make minor clarifications and updates to entire rule 18-21.0082.	Update Rule	None	No
18-21.009	Applications for Public Easement	Rule Amendment	Lists information needed to apply of an Easement	Specify maximum term duration to reduce renewal processing paperwork, time, and expense burdens on public and staff	Update Rule	None	No
18-21.010	Applications for Private Easement	Rule Amendment	Lists information needed to apply for a Private Easement	Specify maximum term duration to reduce renewal processing paperwork, time, and expense burdens on public and staff	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-21.011	Payments and Fees	Rule Amendment	Details what fees apply to use of state-owned submerged land, how to calculate fees, what discounts and waivers apply. Paragraph 18-21.011(2)(b) specifies that the fee for all private easements except for those of 3,000 square feet or less for single family riparian parcels and those for telecommunications lines and associated conduits be determined by an approved appraisal.	Amend rule to require an annual per-square-foot fee for private easements in lieu of an appraisal; the fee would be tied to the then-current base rate for submerged land leases as a percentage. This will save 60-90 days in the application process, save the applicant the cost of having an appraisal performed, eliminate one-time up-front easement fees in favor of annual payments, and allow the applicant to know at the beginning of the project what the easement fee will be. It will also generate a more consistent income stream to the IITF and provide for a more consistent and predictable cost to the easement holder. Consider amending the rule to establish a set fee for open air over water dining and beverage service.	Update Rule	SERC	No
18-21.011	Payments and Fees	Rule Amendment	For 18-21.011(1)(a) and (b)1.: Description of Fee Formula (6% of the annual income, base fee, minimum annual fee, whichever is greater)	Amend (1)(a) and (b)1; HB0013, No fee will be charged on the first 10 square feet of sovereignty submerged lands for each linear foot of shoreline in which the lessee has sufficient upland interest.	Update Rule	SERC	Yes

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-21.011	Payments and Fees	Rule Amendment	For 18-21.011(1)(a)2.: Description of Fee Formula (6% of the annual income, base fee, minimum annual fee, whichever is greater)	Amend (1)(a)2; HB0013: A lease of sovereignty submerged lands for a private residential single-family dock or pier, private residential multifamily dock or pier, or private residential multi-slip dock is not required to pay a lease fee on revenue derived from the transfer of fee simple or beneficial ownership of private residential property that is entitled to a homestead exemption pursuant to s. 196.031 at the time of transfer.	Update Rule	SERC	Yes
18-21.019	Application for Disclaimer	Rule Amendment	Revise formula in 18-21.019(5)(f)	Formula has been revised based on a Board of Trustees agenda item.	Update Rule	None	No
18-21.900	Forms	Rule Amendment	Explains which forms to use and where to obtain forms	May need to update form names and where to obtain forms. Billing Information Form will be updated in Rule 18-21.008 where it is first referenced in the chapter.	Update Rule	None	No
18-23.002	Scope and Goals	Rule Amendment	Basic goals of rule regarding State Buffer Preserves	Clarify language defining Buffer Preserves to clearly match statutory authority for CAMA management of these uplands	Technical Change	None	No
18-23.007	Activities in Buffer Preserves	Rule Amendment	Describes limited and prohibited activities within the Buffer Preserve	Clarify prohibited and limited activities related to domestic animals in a Buffer Preserve. Changes make management consistent with State Parks.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
18-23.010	Enforcement	Rule Amendment	Describes the violation provisions of the prohibited and limited activities.	Amend the enforcement of prohibited and limited activities related to domestic animals. Cleans up references due to changes in 18-23.007.	Update Rule	None	No
18-23.011	User Fees	Rule Amendment	Sets the fees to use the Buffer Preserves	Establish a consistent fee schedule for the new Apalachicola National Estuarine Research Reserve Learning Center. Changes will establish a fee schedule consistent with State Parks.	Update Rule	None	No
62-4.050	Procedures to Obtain Permits and Other Authorizations; Applications	Rule Amendment	This rule sets forth general procedures to obtain permits and establishes permit processing fees.	Restructure air permit processing fees to simplify application process and reduce burden on small businesses.	Update Rule	None	No
62-4.050	Procedures to Obtain Permits and Other Authorizations; Applications	Rule Amendment	Describes the procedures for processing DEP permits, including a schedule of processing fees	Amend (4)(h) the schedule for processing fees to simplify fee categories associated with the Environmental Resource Permit (ERP) program as part of the Statewide ERP (SWERP) authorized under s. 373.4131, F.S., July 1, 2012.	Statutory Mandate (federal or state) (Include effective date)	SERC	Yes
62-4.050	Procedures to Obtain Permits and Other Authorizations; Applications	Rule Amendment	Describes the procedures for processing DEP permits, including a schedule of processing fees	Amend (4)(e) through (i) ERP fees to adjust for CPI changes as required by s. 373.109, F.S., July 1, 2008, and s. 403.087, F.S., July 1, 2008.	Statutory Mandate (federal or state) (Include effective date)	SERC	No
62-4.050	Procedures to Obtain Permits and Other Authorizations; Applications	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No

62-110.107	Licensing	Rule Amendment	This rule is part of the Department's exceptions to the Uniform Rules of Procedure. This rule explains specific procedures applied to the various forms of licensing done by the Department.	This rule will be generally updated and clarified. It may be possible to transfer relevant portions of this rule and delete or repeal other parts.	Update Rule	None	No
62-113.100	Purpose	Rule Amendment	Lists agreements & delegations of DEP's duties and responsibilities under Chapters 253, 373, 376 and 403, F.S., and Title 62, F.A.C., between DEP and other state agencies, political subdivisions & water management districts	Delegation of a portion of the ERP program to Miami-Dade County. In response to a petition for delegation, DEP published a Notice of Rule Development and held a workshop in 2007. Because of the length of time since a publication, any continued work on this delegation will require new rulemaking; awaiting response from MDC as to how to proceed.	Response to a Petition to Initiate Rulemaking	SERC	No
62-113.200	Delegation of Authority by Secretary	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No
62-204.340	Air Pollution Control - General Provisions: Designation of Attainment, Nonattainment and Maintenance Areas	Rule Amendment	This rule specifies the areas in Florida designated as attainment, nonattainment, and unclassifiable pursuant to 40 C.F.R. 81.310. It also specifies the air quality maintenance areas (i.e., former non-attainment areas in which "reasonable available control technology" or "RACT" apply) for ozone and particulate matter.	Delete provisions that are duplicative of federal designations of attainment, nonattainment, and unclassifiable areas and elsewhere adopted by reference.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-204.500	Air Pollution Control - General Provisions: Conformity	Rule Amendment	This rule contains the framework for DEP to review federal general conformity determinations (i.e., determinations that federal actions are consistent with the Florida "State Implementation Plan") submitted to Florida pursuant to 40 CFR Part 51, Subpart W. It also references the federal regulation imposing certain consultation and conflict resolution responsibilities on the Department in the transportation conformity process, and requires DEP to carry out these responsibilities.	Delete unnecessary, obsolete and outdated provisions.	Update Rule	None	No
62-204.800	Air Pollution Control - General Provisions: Federal Regulations Adopted by Reference	Rule Amendment	This rule adopts all of the federal regulations cited throughout DEP's air pollution rules. The actual purpose and effect of these adoptions is determined by the context in which it is cited.	Periodic adoption by references of updated and new EPA air pollution rules for consistency with Clean Air Act requirements and to maintain "Approved" air program status.	Update Incorporated Material	None	No
62-210.200	Stationary Sources - General Requirements: Definitions	Rule Amendment	This rule houses the definitions of terms used throughout DEP's rules pertaining to stationary sources of air pollutant emissions (i.e., FAC Chapters 62-212, 62-213, 62-214, 62-296, and 62-297).	Delete unnecessary and duplicative language; clarify existing definitions to be clearer and plainer; and revise, add, or delete definitions as necessitated by various other rule amendments specified on this plan.	Update Rule	None	No
62-210.300	Stationary Sources - General Requirements: Permits Required	Rule Amendment	This rule specifies the activities that do and do not (i.e., exemptions) require air permits.	Revise to expand permit exemptions.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-210.310	Stationary Sources - General Requirements: Air General Permits	Rule Amendment	This rule houses DEP's air general permits (i.e., permits by rule).	Revise to eliminate unnecessary administrative burdens and update existing general permits. Create additional general permits for minor sources who are currently subject to the more expensive and complex individual permitting process, thereby reducing administrative/procedural burdens and still providing equivalent environmental protection.	Update Rule	None	No
62-210.370	Stationary Sources - General Requirements: Emissions Computation and Reporting	Rule Amendment	This rule (a) sets forth required methodologies for computing emissions and emission increases and (b) requires the submittal of an annual operating report from certain facilities.	Amend annual operating reporting requirements to reduce administrative/procedural burdens and still provide all necessary information.	Update Rule	None	No
62-210.900	Stationary Sources - General Requirements: Forms and Instructions	Rule Amendment	This rule adopts and incorporates the forms associated with permitting and emission reporting requirements for regulated stationary sources of air emissions.	Adopt and reference forms and instructions that are updated in conjunction with various rule amendments specified in this plan and delete unnecessary subsection (2).	Update Incorporated Material	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-212.300	Stationary Sources - Preconstruction Review: General Preconstruction Review Requirements	Rule Amendment	This rule establishes the preconstruction review requirements for proposed new air emissions units or facilities, and proposed modifications to any existing units or facilities, located in areas that are designated to be in attainment of the National Air Quality Standards (or designated as unclassifiable).	Update cross reference to now-repealed rule 62-212.600.	Technical Change	None	No
62-212.500	Stationary Sources - Preconstruction Review: Preconstruction Review for Nonattainment Areas	Rule Amendment	This rule establishes the preconstruction review requirements for proposed new air emissions units or facilities, and proposed modifications to any existing units or facilities, located in areas that are designated as not in attainment (i.e., "nonattainment") of the National Air Quality Standards.	Update to give industries located in nonattainment more flexibility to modernize their plants, make consistent with federal nonattainment new source review requirements, and address cross reference to now-repealed rule 62-204.260.	Update Rule	None	Yes
62-213.205	Operation Permits for Major Sources of Air Pollution: Annual Emissions Fee	Rule Amendment	This rule establishes the emissions fee and procedure to pay the fee for holders of a Title V air operation permit (i.e., "major sources").	Reduce emission fee and delete duplicative language.	Update Rule	None	No
62-213.440	Operation Permits for Major Sources of Air Pollution: Permit Content	Rule Amendment	This rule specifies the content that a Title V air operation permit must include.	Eliminate unnecessary and duplicative administrative/procedural burdens.	Update Rule	None	No
62-213.900	Operation Permits for Major Sources of Air Pollution: Forms and Instructions	Rule Amendment	This rule adopts and incorporates three forms associated with Title V permits: the fee payment form, the statement of compliance form, and the responsible official notification form.	Adopt and reference forms and instructions that are updated in conjunction with various rule amendments specified in this plan.	Update Incorporated Material	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION

62-243.300	Tampering with Motor Vehicle Air Pollution Control Equipment: Exemptions	Rule Amendment	This rule specifies the circumstances under which certifications that a vehicle has not been tampered with are not required.	Update cross references to now-repealed rules 62-243.400(1) & (2).	Technical Change	None	No
62-243.500	Tampering with Motor Vehicle Air Pollution Control Equipment: Certification	Rule Amendment	This rule sets forth the criteria that certifications that a vehicle has not been tampered with must meet.	Delete unnecessary acknowledgement language.	Update Rule	None	No
62-252.300	Gasoline Vapor Control: Gasoline Dispensing Facilities - Stage I Vapor Recovery	Rule Amendment	This rule requires certain gasoline dispensing facilities to install Stage I Vapor Recovery systems by January 2010.	Delete outdated provisions (stage 1 deadlines), while retaining provisions required for Clean Air Act compliance and update cross reference to now-repealed rule 62-252.400 in paragraph (1)(b).	Update Rule	None	No
62-256.200	Open Burning and Frost Protection Fires: Definitions	Rule Amendment	This rule houses the definitions of terms used throughout DEP's rules pertaining to open burning.	Clarify existing definitions to be clearer and plainer and revise, add, or delete definitions as necessitated to conform to revisions to chapter 62-256.	Update Rule	None	No
62-256.300	Open Burning and Frost Protection Fires: Prohibitions	Rule Amendment	This rule prohibits open burning under certain specified circumstances.	Revise to conform to revisions to 62-256.700.	Update Rule	None	No
62-256.700	Open Burning and Frost Protection Fires: Open Burning Allowed	Rule Amendment	This rule allows for open burning under certain specified circumstances.	Revise to (1) clarify existing requirements, (2) eliminate duplicative provisions and (3) reduce administrative/procedural burdens while still providing equivalent environmental protection	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-296.320	Stationary Sources - Emission Standards: General pollutant Emission Limiting Standards	Rule Amendment	This rule contains the facility wide conditions for volatile organic compounds (VOC) handling, objectionable odor, permitted open burning, and the general particulate matter standards which include the process weight table, visible emissions, and unconfined particulate emissions. The facility wide conditions are evaluated separately from the emission unit specific limits.	Eliminate certain duplicative and outdated provisions; and amend references to chapter 62-297 to conform to the amendments to chapter 62-297 that are specified in this plan.	Update Rule	None	No
62-296.401	Stationary Sources - Emission Standards: Incinerators	Rule Amendment	This rule regulates small incinerators, existing incinerators, new incinerators, biological waste incinerators, human crematories, animal crematories, and air curtain incinerators. Rules are included for each type of incinerator that specify the testing, operation, and emissions control requirements.	Delete unnecessary, obsolete and outdated provisions; and amend references to chapter 62-297 to conform to the chapter 62-297 amendments specified in this plan.	Update Rule	None	No
62-296.402	Stationary Sources - Emission Standards: Sulfuric Acid Plants	Rule Amendment	This rule provides statewide air emission limits, test methods, monitoring and reporting requirements for sulfuric acid plants.	Amend references to chapter 62-297 to conform to the chapter 62-297 amendments specified in this plan.	Technical Change	None	No
62-296.403	Stationary Sources - Emission Standards: Phosphate Processing	Rule Amendment	This rule provides statewide air emission limits and test methods for phosphate processing facilities.	Amend references to chapter 62-297 to conform to the chapter 62-297 amendments specified in this plan.	Technical Change	None	No

62-297.450	Stationary Sources - Emissions Monitoring: EPA VOC Capture Efficiency Test Procedures.	Rule Amendment	This rule establishes VOC capture efficiency test procedures for ozone sources that are located in air quality maintenance areas (i.e., former nonattainment areas) for ozone.	Remove duplicative and unnecessary provisions and clarify existing requirements to conform to other revisions to chapter 62-297.	Update Rule	None	No
62-302.300	Findings, Intent, and Antidegradation Policy for Surface Water Quality	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No
62-302.532	Estuary-Specific Numeric Interpretations of the Narrative Nutrient Criterion	Rule Amendment	Lists estuary-specific numeric nutrient standards for Florida estuaries.	When 62-302.532, FAC, was first adopted in Dec 2011, only southern Florida estuaries were included. However, the rule set up a schedule for adopting numeric nutrient standards for the remaining estuaries, with the last estuaries to be completed by June 30, 2015.	Update Rule	Ratification	Yes
62-302.800	Site Specific Alternative Criteria	Rule Amendment	Contains procedures for establishing Site Specific Alternative Criteria (SSAC) and lists SSACs approved by Florida Environmental Regulation Commission.	Anheuser-Busch has requested a Type I SSAC for dissolved oxygen in Thomas Creek (Duval County). The Department is reviewing the data associated with Anheuser-Busch's request.	Update Rule	None	No
62-304.300	Total Maximum Daily Loads	New Rule	Total Maximum Daily Loads	Adopt rules for Total Maximum Daily Load reductions for various pollutants.	Statutory Mandate (federal or state) (Include effective date)	SERC	Yes
62-304.315	Total Maximum Daily Loads	New Rule	Total Maximum Daily Loads	Adopt rules for Total Maximum Daily Load reductions for various pollutants.	Statutory Mandate (federal or state) (Include effective date)	SERC	Yes
62-304.400	Total Maximum Daily Loads	New Rule	Total Maximum Daily Loads	Adopt rules for Total Maximum Daily Load reductions for various pollutants.	Statutory Mandate (federal or state) (Include effective date)	SERC	Yes

62-343.110	Duration of Permits	Rule Amendment	Describes the duration of noticed general, individual, and standard general permits within the ERP program implemented by DEP outside the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-343.120	Permit Extensions	Rule Amendment	Describes the procedures for requesting an extension of the duration of individual and standard general permits within the ERP program implemented by DEP outside the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-343.130	Transfer of Ownership or Permit	Rule Amendment	Describes the procedures applicable for transferring ownership of land and permits within the ERP program implemented by DEP outside the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-343.140	Suspension and Revocation	Rule Amendment	Describes the procedures for revoking or suspending permits within the ERP program implemented by DEP outside the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-343.470	Establishment of Mitigation Credits	Rule Amendment	Describes how credits are assigned based on the activities proposed and how debiting of credits are tracked	Potential need to revise text to ensure consistency statewide between DEP and WMDs	Update Rule	SERC	Yes
62-343.900	Environmental Resource Permit Forms	Rule Amendment	Provides the forms used for applications and notices of activities within the ERP program implemented by DEP outside the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-345.100	Intent and Scope (Uniform Mitigation Assessment Method)	Rule Amendment	States that the intent of the chapter is to fulfill the mandate of 373.414(18), F.S., which requires the establishment of a uniform mitigation assessment method to determine the amount of mitigation needed to offset adverse impacts to wetlands and other surface waters and to award and deduct mitigation bank credits.	Revise to include language providing for the Department to be responsible for ensuring statewide coordination and consistency in the application of this rule by through programmatic training and guidance to the DEP, WMDs and others; will improve statewide consistency for public and staff	Update Rule	SERC	No
62-345.200	Definitions (UMAM)	Rule Amendment	Defines terms used in the chapter	Delete subsections (3) and (8), which are repetitive of statutory definitions, and add a definition of "preservation as mitigation" to help public and staff in the consistent application of the rule	Technical Change	None	No
62-345.400	Qualitative Characterization - Part I (UMAM)	Rule Amendment	Requires that an impact or mitigation assessment area must be described in sufficient detail to provide a frame of reference for the type of community being evaluated and to identify the functions that will be evaluated.	Amend the provisions to improve clarity and consistent application of the rule and form for public and staff	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-345.500	Assessment and Scoring - Part II	Rule Amendment	Utilizing the frame of reference in 62-345.400, Part I, the information obtained in this Part II must be used to determine the degree to which the assessment area provides the functions identified in Part I and the amount of function lost or gained by the project.	This rule could be amended to clarify the 62-345 Uniform Mitigation Assessment Method application of the method for assessment areas where preservation as mitigation is proposed; provide a method to assure equal weighting and evaluation of considerations used to calculate the preservation adjustment factor, when applied to preservation mitigation; and providing additional guidance on the assessment of upland mitigation and location/landscape support. Also, amend so that assessment of seagrasses and hardbottom communities is more tailored to the Joint Coastal Permit projects to improve interpretation and evaluation consistency.	Update Rule	None	No
62-346.010	Policy and Purpose	Rule Amendment	Describes the policy, applicability, and implementation of the chapter within the NFWFMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.020	General Provisions	Rule Amendment	Provides the general applicability of the chapter within the ERP program within the NFWFMD	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective. Also to update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION

62-346.110	Duration of Permits	Rule Amendment	Describes the duration of noticed general, individual, and standard general permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.120	Permit Extensions	Rule Amendment	Describes the procedures for requesting an extension of the duration of individual and standard general permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.130	Transfer of Ownership	Rule Amendment	Describes the procedures applicable for transferring ownership of land and permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.301	Conditions for Issuance of Individual (Including Conceptual Approval) and Standard Stormwater Permits	Rule Amendment	Describes the conditions that must be met to approve all individual and standard general permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.302	Additional Conditions for Issuance of Individual and Conceptual Approval Permits	Rule Amendment	Describes additional conditions that must be met to approve individual and standard general permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.381	General and Special Limiting Conditions	Rule Amendment	Describes the general limiting conditions applicable to individual and standard general permits within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No
62-346.451	Emergency Authorizations and Actions	Rule Amendment	Describes procedures for the review and approval of emergency activities within the NFWWMD ERP program	Repeal or amend after Statewide ERP (Chapter 62-330, F.A.C.) amendments become effective	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-503.200	Definitions	Rule Amendment	Defines terms used in the rule	Adds, clarifies and deletes definitions as appropriate.	Update Rule	None	No
62-503.300	General Program Information	Rule Amendment	Details steps required to obtain a loan. Also includes financing rate for loans.	Would include the new planning and design loans and the allowance calculation for each, clarify the submittal deadlines, include asset management plans as an eligible cost, and would include a new formula for calculating the financing rate.	Update Rule	None	No
62-503.430	Loan Agreements	Rule Amendment	Provides details of loan terms, loan conditions, the application process, disbursements and repayments.	Would be revised to allow the removal of projects that do not meet the deadlines for submittal of a complete application or execution of a loan agreement from the priority list. Also, language would be added to clarify specific requirements for appraisals, disbursements, repayments, and the revenue generation system.	Update Rule	None	No
62-503.500	Funds Reserved for Specific Purposes	Rule Amendment	Describes the small community reserve as well as the use of service fee funds and the grant allocation assessment.	Would be revised to accommodate federal requirements for a green project reserve and principal forgiveness.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-503.600	Priority List Information	Rule Amendment	Details how projects are ranked.	Would be revised to clarify how projects are ranked on the fundable and contingency lists and to limit projects placed on these lists when sufficient funds are not available to fund all projects. In addition the priority system would be revised to accommodate proposed revisions to the Clean Water Act.	Update Rule	None	No
62-503.700	Planning, Design, Construction, and Procurement Requirements	Rule Amendment	Provides the requirements for planning and design documents and how construction contracts must be procured.	Would be modified to clarify the requirements for planning documents and asset management plans. These revisions would also add language for construction manager at risk and design/build contracts.	Update Rule	None	No
62-503.751	Environmental Review	Rule Amendment	Provides details on the environmental review process	Would redefine the location for publishing environmental documents from the Department's website to the Florida Administrative Weekly.	Update Rule	None	No
62-503.800	Audits Required	Rule Amendment	Details requirements for annual audits	Would define the funding thresholds for when a single or program-specific audit are required of the local government and which audit requirements (state or federal) would apply.	Update Rule	None	No
62-503.850	Exceptions to Program Requirements	Rule Amendment	Procedure for requesting exceptions to the rule	Minor cleanup	Technical Change	None	No
62-520.200	Definitions for Ground Water	Rule Amendment	Various definitions used in rule.	Clarification, grammar corrections and removal of definitions duplicative of statute.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-520.310	General Provisions for Ground Water	Rule Amendment	Various provisions concerning discharges to ground water and compliance with standards	Clarification, adds website address, removes outdated provisions.	Update Rule	None	No
62-520.400	Minimum Criteria for Ground Water	Rule Amendment	Establishes minimum criteria for ground water and creates a procedure for setting numerical criteria for narrative criteria.	Corrects grammar.	Update Rule	None	No
62-520.410	Classification of Ground Water, Usage, Reclassification	Rule Amendment	Classifies ground water from Class G-I through Class G-IV according to designated use and provides mechanism for specific reclassification of Class G-II aquifers to Class G-I by the ERC.	Removes Class G-I classification and designation procedure. There are no Class G-I aquifers.	Update Rule	None	No
62-520.420	Standards for Class G-I and Class G-II Ground Water	Rule Amendment	Sets standards for Class G-I and G-II ground water.	Clarifies existing language, provides that Total Dissolved Solids may be higher than 500 mg/L if no other maximum contaminant level is exceeded and disinfection byproduct requirements do not apply to potable water systems and domestic wastewater facilities when conducting qualified flushing or testing programs.	Update Rule	None	No
62-520.430	Standards for Class G-III Ground Water	Rule Amendment	Sets standards for Class G-III ground water.	Updates rule reference.	Update Rule	None	No
62-520.460	Class F-I Ground Water	Rule Amendment	Identifies location of Class F-I aquifer and sets standards.	Updates rule reference.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-520.465	Dimensions of Zones of Discharge for Class G-II Ground Water	Rule Amendment	Establishment of zones of discharge.	Clarifies existing language on extent and combination of Zones of Discharge. Provides for use of model sites to determine compliance for the general reuse area for Part III Slow Rate Land Application Systems, as defined in 62-610.450, F.A.C.	Update Rule	None	No
62-520.470	Modification Procedures for Zones of Discharge or Monitoring Requirements	Rule Amendment	Procedures for modifying extent of zone of discharge.	Clarifies and simplifies procedures for modifying extent of zone of discharge.	Update Rule	None	No
62-520.500	Water Quality Criteria Exemptions for Installations Discharging into Class G-I or G-II Ground Water	Rule Amendment	Creates procedure for requesting exemptions to water quality criteria.	Clarifies that an owner or operator (rather than a facility) initiates an action.	Update Rule	None	No
62-520.520	Exemptions from Secondary Drinking Water Standards Outside a Zone of Discharge in Class G-II Ground Water	Rule Amendment	Allows facilities in existence in 1983 an exemption from compliance with the secondary ground water standards.	Clarifies meaning of "existing" cooling ponds.	Update Rule	None	No
62-520.600	Ground Water Monitoring and Requirements	Rule Amendment	Provides requirements for contents of ground water monitoring plan, and for ground water monitoring well construction and operation.	Various corrections to make references to installation owner, operator and permittee consistent; must demonstrate that assurance of compliance can be obtained by proposed monitoring method; adopts and incorporates three forms; adds characterization of waste stream back into requirements (inadvertently removed in 2009 revision); clarifies number of monitoring wells to be sampled before permit renewal; corrects list of parameters to be monitored; and updates rule reference.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-520.700	Ground Water Corrective Action	Rule Amendment	Lists circumstances under which the Department has the authority to order corrective action.	Creates section on preventive measures for Zone of Discharge, with activities to occur if changes in water quality in the Zone of discharge indicate that an exceedance or violation may occur. Rewords and clarifies text to better state the circumstances under which corrective action would occur.	Update Rule	None	No
62-520.900	Ground Water Forms	Rule Amendment	Adopts and incorporates forms referenced earlier in Chapter 62-520.	Lists forms now adopted and incorporated in Rule 62-520.600, F.A.C.	Update Rule	None	No
62-531.300	Application Requirements for Water Well Contractors	Rule Amendment	Outlines application requirements for water well contractor licensure.	Revise rule to be consistent with the statute. State statutory mandate; effective date 2009.	Statutory Mandate (federal or state) (Include effective date)	None	No
62-531.330	Water Well Contractor License Renewal	Rule Amendment	Outlines application requirements for water well contractor licensure renewal.	Revise rule to be consistent with the statute. State statutory mandates; effective dates 2009.	Statutory Mandate (federal or state) (Include effective date)	None	No
62-531.450	Unlawful Acts, Grounds for Disciplinary Actions, and Penalties	Rule Amendment	Specifies unlawful acts, disciplinary action and penalties for violation of water well construction rules.	Revise rule to be consistent with the statute and address JAPC's request to adopt by rule the Water Well Contractor Citation Dictionary. State statutory mandate; effective dates 2006 and 2009.	Statutory Mandate (federal or state) (Include effective date)	None	No
62-532.200	Definitions for Water Well Permitting and Construction	Rule Amendment	Provided definitions for words used in this chapter.	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-532.400	Permit for Water Well Construction, Repair, or Abandonment	Rule Amendment	Outlines application requirements to construct a well.	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.410	Water Well Completion Report	Rule Amendment	Requirements for submitting a well completion report	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.420	Emergency Water Well Permits	Rule Amendment	Defines process to obtain an emergency permit to construct a wells.	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.430	Intent to Deny a Water Well Construction Permit	Rule Amendment	Defines process to deny a water well construction permit	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.500	Water Well Construction Standards	Rule Amendment	Defines water well construction standards	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.510	Water Well Inspections	Rule Amendment	Inspection authority	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-532.600	Enforcement of Water Well Permitting and Construction Requirements	Rule Amendment	Provides disciplinary guidelines for enforcement	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-532.610	Penalties for Violation of Water Well Permitting and Construction Requirements	Rule Amendment	Defines unlawful acts	Address consistency and streamlining of water wells statewide. This is an ongoing effort in coordination with the water management districts.	Update Rule	SERC	Yes
62-550.310	Primary Drinking Water Standards: Maximum Contaminant Levels and Maximum Residual Disinfectant Levels	Rule Amendment	Establishes primary drinking water standards for public water systems.	Require that non-transient non-community water systems meet the primary drinking water standards for naturally occurring radionuclides AS DIRECTED BY THE STATE SURGEON GENERAL.	Other (Provide a detailed explanation)	SERC	No
62-550.519	Radionuclides Monitoring Requirements	Rule Amendment	Establishes radionuclide monitoring requirements for community water systems.	Add radionuclide monitoring requirements for non-transient non-community water systems AS DIRECTED BY THE STATE SURGEON GENERAL.	Other (Provide a detailed explanation)	SERC	No
62-550.817	Additional Requirements for Subpart H Surface Water Systems	Rule Amendment	Implements the federal Surface Water Treatment Rules, which are part of the National Primary Drinking Water Regulations.	Clarify the federal Long-Term 2 Enhanced Surface Water Treatment Rule, which was adopted by reference effective December 30, 2011.	Update Rule	None	Yes
62-550.822	Initial Distribution System Evaluations and Stage 2 Disinfection Byproducts Requirements	Rule Amendment	Implements the federal Stage 2 Disinfectants and Disinfection Byproducts Rule (D/DBPR), which is part of the National Primary Drinking Water Regulations.	Clarify the federal Stage 2 D/DBPR, which was adopted by reference effective December 30, 2011.	Update Rule	None	Yes
62-550.828	Ground Water Rule	Rule Amendment	Implements the federal Ground Water Rule (GWR), which is part of the National Primary Drinking Water Regulations.	Clarify the federal GWR, which was adopted by reference effective December 30, 2011.	Update Rule	None	Yes
62-552.200	Definitions.	Rule Amendment	Defines terms used in the rule	Include several new definitions, and modify several existing definitions for clarification and applicability.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-552.300	General Program Information.	Rule Amendment	Establishes allowable project costs.	Eliminate loan repayment reserves.	Update Rule	None	No
62-552.350	Pre-construction Loans for Rate-Based Community Water Systems.	Rule Amendment	Establishes requirements to obtain pre-construction funding.	Allow small communities that do not have a public health risk issue to apply for pre-construction loans. Also, set interest rates for roll-over projects based on the current market rate, and not based on the rate from the pre-construction loan.	Update Rule	None	No
62-552.360	Pre-construction Grants for Financially Disadvantaged Communities.	Rule Amendment	Establishes requirements to obtain pre-construction grant funding.	Allow qualifying sponsors of DWSRF projects to receive more than one pre-construction grant, but limit sponsors to one open grant at a time.	Update Rule	None	No
62-552.370	Construction Grants for Financially Disadvantaged Communities.	Rule Amendment	Establishes requirements to obtain construction grant funding.	Allow qualifying sponsors of DWSRF projects to receive more than one grant, but limit sponsors to one open grant at a time.	Update Rule	None	No
62-552.420	Project Allowances.	Rule Amendment	Establishes project allowances.	Remove the technical services costs from the calculation of allowances.	Update Rule	None	No
62-552.430	Construction Loan Agreements for Rate-Based Community Water Systems.	Rule Amendment	Establishes financing rate for loans.	Incorporate the use of the affordability Index currently being used by the Clean Water SRF.	Update Rule	None	No
62-552.600	Project List Information.	Rule Amendment	Establishes procedures to request listing on fundable lists.	Change the requirement to obtain fundable listing to readiness to proceed.	Update Rule	None	No
62-552.650	Priority Determination.	Rule Amendment	Establishes the priority system for ranking of projects.	Revise the priority system to limit the listing of low priority projects when funds are not available.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-552.655	Ranking Projects for Project List Development.	Rule Amendment	Establishes procedures to allocate funds to projects on the fundable list.	Increase the allowable segment cap for loan/grant projects to the same segment cap established annually for loans.	Update Rule	None	No
62-555.312	Location of Public Water System Mains	Rule Amendment	Establishes separation distances between public water system mains and contamination sources.	Clarify the applicability of this rule, and clarify separation distances between water mains and sanitary or storm sewer manholes.	Update Rule	None	No
62-555.315	Public Water System Wells - Security; Number; Capacity; Under the Direct Influence of Surface Water; Control of Copper Pipe Corrosion and Black Water; and Disinfection and Bacteriological Surveys and Evaluations	Rule Amendment	Establishes numerous requirements related to wells or ground water treatment.	Clarify security fence requirements; reduce the required number of water samples for a well survey; reduce the required time interval between water samples for a well evaluation; clarify and reduce assessment ground water source monitoring and related ground water treatment requirements.	Update Rule	None	Yes
62-555.320	Design and Construction of Public Water Systems	Rule Amendment	Establishes numerous requirements related to the design and construction of public water systems.	Clarify or reduce requirements pertaining to indirect drinking water additives, security fences, monitoring and alarms for nitrate/nitrite treatment facilities, disinfection of ground water, finished-water meters, finished-water storage capacity, and hydropneumatic tanks.	Update Rule	None	Yes
62-555.325	Fluoridation	Rule Amendment	Establishes design, construction, and operation requirements for public water systems that are fluoridating their water.	Update the recommended optimal fluoride concentration for fluoridated community water systems.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-555.330	Engineering References for Public Water Systems	Rule Amendment	Incorporates widely recognized engineering references.	Update the incorporated engineering references.	Update Incorporated Material	None	No
62-555.335	Guidance Documents for Public Water Systems	Rule Amendment	Lists available guidance documents.	Update the listed guidance documents.	Update Rule	None	No
62-555.340	Disinfection and Bacteriological Evaluation of Public Water Systems	Rule Amendment	Establishes disinfection requirements for new or altered public water system facilities and for public water system facilities taken out of operation for repair or maintenance.	Clarify the applicability of this rule, and reduce the required time interval between water samples taken to verify proper disinfection of treatment or storage facilities.	Update Rule	None	Yes
62-555.348	Planning for Expansion of Public Water System Source, Treatment, or Storage Facilities	Rule Amendment	Establishes requirements for community water systems to prepare capacity analysis reports and plan for any needed expansion of their facilities.	Reduce the applicability of this rule to only community water systems serving more than 3,300 persons.	Update Rule	None	No
62-555.350	Operation and Maintenance of Public Water Systems	Rule Amendment	Establishes numerous operation and maintenance requirements for public water systems.	Clarify or reduce some operation or maintenance requirements or related recordkeeping requirements.	Update Rule	None	Yes
62-555.360	Cross-Connection Control for Public Water Systems	Rule Amendment	Establishes cross-connection control requirements for public water systems.	Provide community water systems more flexibility regarding acceptable backflow protection at service connections to residential premises where there is an auxiliary water system; allow less-frequent testing of backflow preventer assemblies at service connections to residential premises; and clarify this rule to improve compliance.	Update Rule	None	Yes

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-555.520	Applying for Public Water System Construction Permits	Rule Amendment	Establishes construction permit application requirements for public water systems.	Clarify some construction permitting requirements, and allow plumbing contractors to design certain non-community water system projects that have a value up to \$125,000.	Update Rule	None	No
62-555.536	Modification, Transfer, or Revocation of Public Water System Construction Permits	Rule Amendment	Establishes requirements related to modification, transfer, or revocation of public water system construction permits.	Clarify that public water system projects using a general permit may not be modified without submitting a new general permit application and fee.	Update Rule	None	No
62-555.900	Forms and Instructions	Rule Amendment	Lists all forms used in the Public Water System Supervision Program.	Update the list of forms.	Update Rule	None	No
62-600.100	Scope, Intent, Purpose, and Applicability	Rule Amendment	Establishes the purpose of Chapter 62-600, F.A.C., and what types of domestic wastewater facilities the Chapter applies to.	Clarify rule and revise for consistency with more recently adopted Department rules. Repeal (1)-(4), (6), and (9) which are not needed and/or are redundant to other State regulations.	Update Rule	None	No
62-600.120	Exemptions	Rule Amendment	Establishes exemptions for certain domestic wastewater facilities from the requirements of Chapter 62-600, F.A.C.	Clarify rule and revise for consistency with more recently adopted Department rules and Section 381.0065, F.S. Repeal (2); Chapter 62-600, F.A.C., is not applicable to collection systems.	Update Rule	None	No
62-600.200	Definitions	Rule Amendment	Defines terms used in Chapter 62-600, F.A.C.	Repeal definitions which repeat statutes or are not used in Chapter 62-600, F.A.C. Clarify and revise other definitions for consistency with more recently adopted Department rules.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-600.300	General Technical Guidance and Related Rules	Rule Amendment	Incorporates technical references and identifies regulations that may be applicable to domestic wastewater facility projects.	Clarify rule and update to incorporate most current version of references and for consistency with more recently adopted Department rules. Repeal (6) which is informational only.	Update Rule	None	No
62-600.400	Design Requirements	Rule Amendment	Establishes design requirements for domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.405	Planning for Wastewater Facilities Expansion	Rule Amendment	Establishes requirements for the timely planning, design, and construction of domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.410	Operation and Maintenance Requirements	Rule Amendment	Establishes operation and maintenance requirements for domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules. Repeal (2)-(4), (9), and (10) which are not needed and/or are redundant to other State regulations.	Update Rule	None	No
62-600.420	Minimum Treatment Standards - Technology Based Effluent Limitations (TBELs)	Rule Amendment	Establishes the criteria for the minimum treatment standards (technology based effluent limitations) for domestic wastewater facilities and identifies regulations that require additional levels of treatment.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.430	Additional Treatment - Water Quality-Based Effluent Limitations (WQBELs)	Rule Amendment	Establishes how to determine water quality based effluent limitations for domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-600.440	Disinfection - Design and Operational Criteria	Rule Amendment	Establishes design and operational criteria for low, basic, intermediate and high-level disinfection at domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.445	pH - Standards and Operational Criteria	Rule Amendment	Establishes pH standards and operational criteria for domestic wastewater facilities.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.500	General	Rule Amendment	Establishes minimum treatment requirements for domestic wastewater facilities and where the requirements must be met.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.510	Discharge to Surface Waters (Excluding Ocean Outfalls)	Rule Amendment	Establishes treatment requirements for domestic wastewater facilities discharging to surface waters, excluding ocean outfalls.	Clarify rule and revise for consistency with more recently adopted Department rules. Repeal (2) and (3) which have been superseded by Part V of Chapter 62-610, F.A.C.	Update Rule	None	No
62-600.520	Discharge to Surface Waters - Ocean Outfalls	Rule Amendment	Establishes treatment requirements for domestic wastewater facilities discharging to ocean outfalls.	Clarify rule and revise for consistency with ocean outfall legislation. Repeal (3)-(5) which have been superseded by ocean outfall legislation and/or are redundant to other State regulations.	Update Rule	None	No
62-600.530	Reuse of Reclaimed Water and Land Application	Rule Amendment	Establishes treatment requirements for domestic wastewater facilities discharging to reuse and land application systems.	Clarify rule and revise for consistency with more recently adopted Department rules.	Update Rule	None	No
62-600.540	Ground Water Disposal by Underground Injection	Rule Amendment	Establishes treatment requirements for domestic wastewater facilities discharging to underground injection wells.	Clarify rule and revise for consistency with more recently adopted Department rules. Repeal (2) and (3) which have been superseded by Part V of Chapter 62-610, F.A.C.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-602.200	Definitions	Rule Amendment	Definitions for rule 62-602	The definitions in (7), (13), (16), (20), and (21) are to be deleted. They are duplicative to definitions listed in statute.	Update Rule	None	No
62-611.501	Standards Within Treatment and Receiving Wetlands	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No
62-621.300	Permits	Rule Amendment	62-621.300(1) Establishes a NPDES generic permit for discharges from petroleum contaminated sites to surface waters of the state; and 62-621.300(2) Establishes a NPDES generic permit for discharge of produced ground water from non-contaminated sites to surface waters of the state	Revise both permits to update and reduce information requirements, monitoring, recordkeeping and reporting. Note: Rulemaking was initiated in 2010 prior to OFARR review.	Update Rule	None	No
62-621.300	Permits	Rule Amendment	Establishes requirements to obtain coverage under the NPDES stormwater generic permit for large and small construction activities	Amend (4) to insert new stormwater pollution prevention requirements, new non-numeric effluent limitations, and new prohibitions on non-stormwater discharges to be consistent with Federal requirements	Update Rule	SERC	No
62-621.300	Permits	Rule Amendment	Establishes requirements to obtain coverage under the NPDES multisector generic permit for stormwater discharges from industrial activities	Amend (5) to reorganize rule and write in plain English to make it easier to understand; Insert new requirements for discharges to impaired water bodies with adopted TMDLs to be consistent with Federal requirements.	Update Rule	SERC	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-621.300	Permits	Rule Amendment	Establishes requirements to obtain coverage under the NPDES generic permit for stormwater discharges from Phase II MS4s.	Amend (7) to insert clarifications regarding the written stormwater management program requirements; insert new requirements for discharges to impaired water bodies with adopted TMDLs; ensure consistency with Federal requirements in MS4 Permit Improvement Manual	Update Rule	SERC	No
62-621.303	Toxicity Testing Requirements	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No
62-646.071	Fees	Rule Amendment	Explained by rule title	Update rule citations referencing rules repealed on 2/16/12 per EO 11-72	Update Rule	None	No
62-660.803	General Permit for Car Wash systems	Rule Amendment	Establishes a general permit for construction and operation of car wash wastewater treatment and disposal systems.	Revise permit and rule to clarify circumstances under which complete recycle systems that do not discharge and follow specific Best Management Practices (BMPs) written into the rule are not required to obtain permits, and to update and reduce information requirements, monitoring, recordkeeping and reporting.	Update Rule	None	No
62-660.804	General Permit for Sand and Limestone Mines	Rule Amendment	Establishes a general permit for construction and operation of mines that use water to remove fine materials from sand and limestone	Revise permit and rule to enable facilities to follow BMPs (to be written into the rule) in lieu of the general permit, and to update and reduce information requirements, monitoring, recordkeeping and reporting.	Update Rule	None	No

DEPARTMENT OF ENVIRONMENTAL PROTECTION
2012-2013 Annual Regulatory Plan

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-699.200	Definitions	Rule Amendment	Provides definitions of terms or phrases used in Chapter 62-699, Treatment Plant Classification and Staffing	Delete definitions that duplicate those in the FS, and add clarifying definitions.	Update Rule	None	No
62-699.310	Classification and Staffing of Domestic Wastewater or Water Treatment Plants and Water Distribution Systems	Rule Amendment	Establishes base classification and staffing requirements for domestic wastewater treatment plants, drinking water treatment plants, and drinking water distribution systems.	Reduce operator staffing requirements for some drinking water treatment processes, and clarify this rule.	Update Rule	None	Yes
62-699.311	Additional Classification and Staffing Requirements	Rule Amendment	Establishes additional classification and staffing requirements for domestic wastewater treatment plants, drinking water treatment plants, and drinking water distribution systems.	Reduce the required number of owner checks or visits for some drinking water treatment plants, and clarify this rule.	Update Rule	None	No
62-701.320	Solid Waste Management Facility Permit Requirements, General	Rule Amendment	Addresses general requirements for solid waste permit applications and requirements that apply to all permitted solid waste facilities.	Subsection (15) for operator and spotter training - delete the requirement to list training classes or describe in-house training program.	Technical Change	None	No
62-701.500	Landfill Operation Requirements	Rule Amendment	Addresses general operation requirements for landfills.	Paragraph (4)(a) for waste records needs to include the county of origin in where the waste is generated in order to properly count the waste for recycling accounting. New paragraph (4)(c) will require annual reports for landfill operators that knowingly receive C&D debris to facilitate recycling accounting.	Technical Change	SERC	No

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-701.600	Landfill Final Closure	Rule Amendment	Addresses requirements for closing landfills.	Subsection (6) needs additional language requiring a Construction Quality Assurance final report be submitted by the engineer after closure construction is complete.	Technical Change	SERC	Yes
62-701.630	Financial Assurance	Rule Amendment	Addresses requirements for having financial assurance to properly close a landfill.	Paragraph (6)(e) needs to be added to allow money from closure insurance policies to be placed into a trust fund to be used for closure if the owner does not complete closure. This would allow the Department to use the funds without having to set aside other money for closure in order to establish a contract with contractor to perform closure.	Technical Change	SERC	No
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (2)(a)3 needs additional language to ensure that the hydrogeological investigation also includes indentifying contaminated areas on-site and a map showing location of potable wells within 500 feet of the waste storage areas.	Technical Change	SERC	No
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Portions of subsection (4) dealing with liner requirements and ground water monitoring need to be relocated into other parts of the rule for clarification.	Update Rule	None	No

Rule Number	Rule Title	Rulemaking Action	Description of Current Rule	Description of Changes to be Made in Rulemaking	Reason for Rulemaking	Economic Impact	Highly Technical or Complicated
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (6)(a) needs to be added to require liners for new or lateral expansion disposal units that did not receive a Department permit prior to July 1, 2010.	Statutory Mandate (federal or state) (Include effective date)	SERC	Yes
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (6)(c) needs to be added to require the proper management of leachate for C&D sites that are lined.	Technical Change	SERC	Yes
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (6) needs to be relocated to another part of the rule for clarification.	Update Rule	None	No
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (7)(i) needs to be added to clarify what can be used for the first lift of wastes at a lined C&D debris disposal facility.	Technical Change	SERC	Yes
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subparagraph (8) needs to be relocated to another part of the rule for clarification.	Update Rule	None	No
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Paragraph (9)(b) needs additional language to say that if a C&D site is lined, then it needs a low permeability material in the final cover as well.	Technical Change	SERC	Yes
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Paragraph (9)(c) needs to be added to include a gas management system in the closure if the final cover has a barrier layer.	Technical Change	SERC	Yes
62-701.730	Construction and Demolition Debris Disposal and Recycling	Rule Amendment	Addresses requirements for properly operating and closing C&D debris disposal facilities.	Subsection (10) needs additional language to clarify the requirements for long-term care.	Update Rule	SERC	No
