

Agenda
Catalog Workgroup Meeting
March 31, 2015
1:30 – 2:30 pm

A. Biological Monitoring

- **Issue: Level of detail for biological monitoring metadata submittal and searches is so far unresolved.**
- History of this effort
- Should work with existing Water-CAT schema
- Questions for consideration:
 - What is the audience? Who is going to look for biological/ecological studies or metrics on the Water-CAT?
 - What should the interface look like?
 - What is the best fit with existing Water-CAT architecture?
 - How best to ensure that it's straightforward for data providers, and relatively easy for users?
 - What makes the most sense?

B. Other
