

Appendix A: Supporting and Exploratory Analyses for Lakes

**Technical Support Document for U.S. EPA's Proposed Rule
for Numeric Nutrient Criteria for Florida's Inland
Surface Fresh Waters**

Contents

Appendix A: Supporting and Exploratory Analyses for Lakes Technical Support Document for U.S. EPA's Proposed Rule for Numeric Nutrient Criteria for Florida's Inland Surface Fresh Waters

Appendix A-1: Lake Nutrient, Chl. *a*, and Clarity Distributional Statistics by Lake Class

Appendix A-2: Documentation about Use of Alkalinity (and Specific Conductance) as Basis
for Distinguishing Clear Lakes

Appendix A-3: FDEP's Summary of Chl. *a* Literature Pertinent to Lake Numeric Nutrient
Criteria Development

Appendix A-4: FDEP's Lake Vegetation Index (LVI) and Scientific Peer Review of the LVI

Appendix A-5: FDEP's Nutrient-LVI Stressor-Response Analyses

Appendix A-6: Multiple Regression Models and Criteria

Appendix A-7: FDEP's Benchmark Lakes Data

Appendix A-8: FDEP's Benchmark Lake Summaries

Appendix A-9: Memo to FDEP Regarding Interval and Equivalence Tests for the LVI

Appendix A-10: FDEP's Lake Vegetation Index Biological Gradient Workshop Data

**Appendix B: Supporting and Exploratory Analyses for Streams
and Canals**

**Technical Support Document for U.S. EPA's Proposed Rule
for Numeric Nutrient Criteria for Florida's Inland
Surface Fresh Waters**

Contents

- Appendix B-1: FDEP's Stressor-Response Analyses for Florida Streams
- Appendix B-2: FDEP's Development and Testing of Biomonitoring Tools for Macroinvertebrates in Florida Streams
- Appendix B-3: FDEP's Stream Diatom Index (SDI)
- Appendix B-4: Statistical Analysis of Nutrient Water Quality Parameters by Florida Watersheds
- Appendix B-5: Alternative Calculations for EPA's Proposed Nutrient Watershed Region Distribution Approach
- Appendix B-6: Statistical Analysis of Ambient Water Quality Data in Florida Streams by FDEP's Nutrient Regions
- Appendix B-7: Distribution Statistics for Streams and Rivers Using U.S. EPA's Nutrient Watershed Regions
- Appendix B-8: Extrapolating Natural Background Nutrient Concentrations
- Appendix B-9: Analysis of FDEP Benchmark Sites and WBID/Segment 303(d) List Status
- Appendix B-10: Analysis of Land Disturbance Index Computation Approach for FDEP's Benchmark WBIDs
- Appendix B-11: Analysis of FDEP's Rapid Periphyton Survey Data
- Appendix B-12: Multiple Regression Model for Stream SCI
- Appendix B-13: Mapping Continuous Biological Index Values to BCG Tiers
- Appendix B-14: Memo to FDEP Regarding Interval and Equivalence Tests for the SCI
- Appendix B-15: FDEP's Site Information and Taxa Lists for Stream Benchmark Site Samples
- Appendix B-16: FDEP's Site Information and Taxa Lists for SCI BCG Workshop Samples
- Appendix B-17: FDEP's Stream Benchmark Summaries
- Appendix B-18: In-stream and Downstream Protection Value (IPV/DPV) Tables with DPV Geo-Reference Table to Florida WBIDs
